martins-portfolio-sage.vercel.app | flth-podcast.vercel.app

PROFESSIONAL SUMMARY

Passionate and self-driven Frontend Web Developer with 3+ years of hands-on experience building modern, responsive, and AI-enhanced web applications. Proven ability to take projects from concept to live production deployment. Recently built and launched Grok Script Studio — a full-stack AI-powered content creation tool for viral YouTube scripting. Strong focus on clean code, exceptional UI/UX, and leveraging modern AI tools to build products that solve real problems.

TECHNICAL SKILLS

Core Technologies: JavaScript (ES6+), TypeScript, HTML5, CSS3, SCSS

Frameworks & Tools: React, Vite, Tailwind CSS, Netlify Functions, WordPress

AI & Integrations: Grok API, Claude AI, OpenAI, Structured AI Prompting, Real-time AI Generation

Version Control: Git, GitHub

Other: Responsive Design, SEO Basics, Figma (UI), Node.js (Basic)

PROJECTS

Grok Script Studio — AI YouTube Script Generator | grokscripstudio.netlify.app

Tech Stack: HTML • CSS • JavaScript • Netlify Functions • Grok AI

Designed and developed a beautiful animated AI SaaS tool that generates viral YouTube, TikTok, Instagram and Facebook scripts with titles, structured sections and optimized hashtags.

Built platform-specific generation logic, permanent keyword library, one-click copy and localStorage-based script saving system.

Created responsive glassmorphism UI with animated particle starfield background and mobile-first navigation.

Integrated serverless Netlify Functions backend for secure AI API calls — solving CORS and API key exposure challenges.

Delivered a production-grade application from concept to live deployment showcasing modern frontend architecture and real AI integration.

Martins Developer Portfolio | martins-portfolio-sage.vercel.app

Tech Stack: React • TypeScript • SCSS Modules • Vite

Built a modern fully responsive developer portfolio featuring animated sections, reusable components, contact form with Formspree integration and Vercel deployment.

Implemented type-safe components using TypeScript interfaces and SCSS Modules for scoped styling.

E-M Unisex Salon Website | e-munisexualsalon.com

Tech Stack: HTML • SCSS • JavaScript • WordPress

Designed and deployed a complete responsive business website with custom domain, hosting setup and mobile-first design for a real paying client.

FLTH Podcast Platform | flth-podcast.vercel.app

Tech Stack: React • TypeScript • SCSS Modules • Formspree • Vercel

- Developed a production-ready podcast platform with responsive sections, SEO, Open Graph metadata, accessibility improvements, Formspree-powered guest and story submission forms, and

Vercel deployment.

WORK EXPERIENCE

Frontend Web Developer — Self-Employed / Freelance

September 2023 – Present | Remote | Nigeria

Built and shipped multiple production web applications from concept to live deployment serving real clients.

Designed and integrated AI-powered tools using Grok, Claude and OpenAI APIs into real user-facing products.

Specialized in creating interactive responsive user interfaces with React, TypeScript and modern CSS architectures.

Delivered client projects end-to-end including requirements gathering, design, development, deployment and post-launch support.

Consistently used AI development tools to accelerate debugging, research and development workflows.

EDUCATION

Bachelor of Science in Physics

Federal University of Lafia, Nigeria | B.Sc. Physics | December 2019 – September 2024

Developed strong analytical, problem-solving and research skills applied daily in software development.

CERTIFICATIONS & ACHIEVEMENTS

Turing Developer Vetting Assessment — Turing.com — 2025

Frontend Web Development — Self-trained with 2+ years production experience — 2023 to Present

Built and launched Grok Script Studio — a live AI-powered web application used by real users

Operates Beyond Logic — a YouTube science and technology channel

LANGUAGES

English — Advanced (Professional Working Proficiency)
